"It has been done many times. Sometimes the estranged couples who have been reunited through Judges, mutual friends, relatives or love of their children are even happier in heir second chance at matrimony than couples who have never separated temperarily," declared Judge "They are ahead of the game and know how to play it by xperience."

"What three outstanding rules would you give to the couples who are trying to patch things up?

How can they start again?" "There are no clastic rules which may be read and will immediately bring them into each other's arms," said Judge Freschi, "but there are three little sentences which might help such couples to forgive and forget and start again as if nothing ad happened.
